PROJECTS

Design a simple landing page for a website (desktop only)

May 2024 - May 2024

https://trainings.internshala.com/uploads/figma-ui-ux-specialization/uploads/projects/v_1/4057165/664078b465d2d.zip

Designed a simple landing page that promotes and give well-designed information about a product or service.

Campus Placement/Recruitment Management System

Jan 2024 - Apr 2024

https://jobrecruitment.pythonanywhere.com

Developed a comprehensive Campus Placement/Recruitment Management System using Python as the primary programming language. Designed and implemented database schemas, user authentication, and authorization systems. Integrated features for job posting, applicant tracking, and interview scheduling. Employed frameworks such as Flask/Django for the backend and HTML/CSS/JavaScript for the frontend, ensuring a seamless user experience. Implemented robust testing procedures to ensure reliability and scalability. Demonstrated strong problem-solving skills and attention to detail throughout the development lifecycle.

Online Art Gallery

Jun 2023 - Dec 2023

https://www.linkedin.com/pulse/online-art-gallery-sakamuri-deepak-kumar?utm_source=share&utm_medium=member_android&utm_campaign=share_via

I successfully designed and implemented a full-stack online art gallery using the MERN (MongoDB, Express.js, React.js, Node.js) stack. This project involved creating a user-friendly interface for browsing and purchasing artwork, implementing authentication and authorization features, and integrating payment gateways for seamless transactions. The project showcases my proficiency in front-end and back-end development, as well as my ability to work with modern web technologies.
